WARRIOR

The project

The WARRIOR project is an initiative approved by the National Youth Agency in the framework of the programme Erasmus Plus Cooperation partnerships in youth (KA220-YOU) and is co-funded by the European Union.

It is developed by 5 partners and aims to to provide youth workers and young people with a specially designed educational manual to

- strengthen their ability to identify false information and manipulation,
- train young people to recognize fake news,
- improve youth workers' digital skills to promote the fight against falsifications and manipulation through social media.

Its priority

The project wants to improve the media literacy of young people in virtual environments, improving their digital skills to promote the fight against forgery and manipulation through social media.
